

UNT Robotics

BOTATHON SPONSORSHIP INFO

WHAT IS BOTATHON?

The inaugural botathon competition takes place this April at UNT. We provide students with hardware, software, mentorship and more for 12-hours in which they can team-up to build a complete robot and compete for prizes at the end of the day. It is free and open to all UNT students, we will provide free food, skills workshops, and tech demos. Students will compete in a custom-built arena where they will use their innovative and creative methods to pop the other team's balloons while defending their own with their team.

HOW CAN YOU BE INVOLVED

Companies can get involved with the event in a number of ways, catering a meal, sending parts for building robots, giving a talk and providing mentorship to student build teams. Sponsorship of the event can help your company as well! You can have recruiters on site, talk at our kickoff, send out promotional emails, distribute company swag, get listed on our website, be a finals judge, receive resumes, put your logo on our marketing material, and get listed on our social media.
